

## **COMMUNITY SERVICE**

The Community Service Program promotes the American Legion Auxiliary's visibility without our localities through our commitment to community, state and nation. By being a brand advocate with the Community Service Program, our members demonstrate who we are, what we do and why we matter.

Become visible within your community by working with and inviting other organizations to work on service projects so that the community will recognize the American Legion Auxiliary's local efforts to support our veterans.

You can do this by purchasing shirts with the Auxiliary's emblem on it while you volunteer.

Participate in service projects for veterans.

You can participate in walks, blood drives, helping with events at assisted living centers and nursing homes.

You can let everyone know what the Auxiliary does by putting it in the newspapers.

There are so many different areas that you can choose to let people know what the ALA is all about and what we can do to help our veterans.
